

Please do not interfere with INDIANA's telephone privacy law. Since we have signed up for the "DO NOT CALL LIST" we recieve fewer unwanted/unsolicited calls. We used to get upwards of at least a dozen calls per day. I can honestly say as a parent raising two small children it is very annoying and disturbing to recieve so many unwanted calls at all hours. We've even recieved calls at 7:30 am on Sunday morning. We've even tried the telezapper to reduce unwanted calls. I believe it is my right to ask for protection from these unwanted callers. Just as I have a right to put a do not solicit sign on my door to reduce visitors, I should have the right to block unwanted calls. Please do not make me resort to unplugging my phone. I'm actaully considering disconnecting my phone and using my unlisted cell phone for communication purposes. I do not want the unsolicited calls. If these callers need to reach me they can send me a letter and I will read in at my convenience not there's. Again please do not interfere with Indiana's telephone privacy law. You should really be considering a law that goes further.
